

Managing Director, Human Resources

\$160K+

This polished, seasoned Human Resources professional has more than 15 years experience in a range of environments including the public sector, and health care.

She has been part of the Executive team, involved in the design and implementation of HR initiatives such as executive compensation, succession planning, organizational development, recruitment and retention, and employee relations as well as learning and development.

Her roles have been both operational and strategic and she has substantive experience dealing in labour relations.

She has a BA and her CHRL and is looking for a leadership role that needs her extensive skills and experience.
